*This presentation includes a discussion of mental health topics, based on real survey data.
If this content feels uncomfortable or triggering, please don't hesitate to seek help.
UTA offers multiple resources to seek help for mental well-being.*

Your well-being comes first.

Thank you for your understanding !

DATA SET

Student Depression Dataset

Analyzing Mental Health Trends and
Predictors Among Students

Depression affects nearly 44% of college students worldwide

Academic pressure, social isolation, and financial stress are leading contributors.

Early detection through data-driven methods can help identify at-risk students and support intervention.

DATA SET OVERVIEW

ID	51613
